About Copper Star Home Medical

Copper Star Home Medical was founded in 2019; we then acquired the leading Home Medical Supplier in the valley and became one, opening five stores and stocking thousands of needed products. **We are locally owned and operated.** We believe in meeting the highest quality of care when dealing with our customer's health. Our Google reviews speak for themselves. With **over 1,000 reviews and a 4.7-star rating**, we will do everything possible to bring wellness to your home.

We are one of the few DMEs left that are locally owned and operated here in Arizona.

If you're like most of our customers, you probably don't wake up wanting to come to a home medical store. We understand. Our team is committed to understanding your concerns, creating a custom solution, and getting you what you need so you can have the health and wellness you want. We are committed to respecting your time and providing the best product and service you deserve.

Why Choose Us

Hear why, from real customers!

4.7 Google Rating

Our real customers experience speak for themselves. We lead in reviews among all home medical supply companies in the state of Arizona.

Largest Selection

Not only do we carry the highest quality products, we also have the largest selection in stock. Also, if we don't have what you need there is a good chance we can get it very quickly.

Real Relationships

We have highly trained staff - we only hire people who love people. When you call you will speak to a real person, who understands your situation and is trained how to best serve you.

No Sales Tax

Copper Star Home Medical does not charge Sales Tax on most of our items when you purchase in-store. Not paying Sales Tax is a considerable advantage to saving money while shopping for needed medical equipment.

Support Your Locally Owned & Operated Companies

We accept insurance! Call us and see if you are in our network.

Lift Chairs

Lift chair or recliner, what's the difference? At first glance, they seem the same; however, don't let looks deceive you. Lift chairs include many benefits and features not found in a recliner, making them perfect for recovery, rest, and relaxation. They also increase independence and prevent falls. The adjustable features allow you to change positions quickly and remain comfortable. If you have yet to experience a lift chair's ease and comfort, you must change that today!

OxyGo Home Stationary Unit

PRICE: \$1,209

Product Code: 1400-5100

The OxyHome 5L Stationary Concentrator. This innovative unit is designed to provide a continuous oxygen flow of up to 5L per minute for home use.

The OxyHome 5L Stationary Concentrator is a sleek and modern-looking device that is easy to use, and its small footprint means that it can fit comfortably in any home environment. Its quiet operation ensures that users can carry on with their daily activities without any disruption.

A key feature of the OxyHome is its twin blower cooling design. This feature helps to keep the device cool during operation, ensuring that it performs optimally and reliably over time. The unit is also backed by a 3-year replacement warranty, giving users the peace of mind they need when it comes to their health and wellbeing.

CPAP Therapy is good for:

Being one of the millions of people with sleep apnea can make you feel down. However, you will continue to feel worse if you don't receive the proper treatment. A CPAP machine is the best thing someone can use to reduce the stranglehold that sleep apnea often creates. Learning about these 10 reasons why you should consider using a CPAP machine proves its tremendous positive effect on your overall health.

HOME SAFETY EVALUATION

Living Room

- ✓ Is there too much furniture and not enough space to move around?
- ✓ Do throw rugs and electrical cords pose a tripping hazard?
- ✓ Do you have difficulty getting out of a chair or seated position?

Bathroom

- ✓ Is the tub or shower floor slick or slippery?
- ✓ Do you need help getting in and out of the shower or tub?
- ✓ Do you need help toileting?

Kitchen

- ✓ Are your pathways in and out of your space obstructed?
- ✓ Are there any hazardous chemicals nearby?
- ✓ Is the floor slippery?

Outdoors

- ✓ Do you have to step up over a threshold?
- ✓ Are your steps missing proper handrails?
- ✓ Are you struggling to hear your doorbell?

Bedroom

- ✓ Do you have trouble getting in and out of bed?
- ✓ Is there too much clutter/not enough space to move furniture?
- ✓ Is the path from your bed to the bathroom dark?
- ✓ Is your bed height between 20-23" off the floor?
